

# American Journal of CLINICAL PATHOLOGY

## TECHNICAL SUPPLEMENT

### EDITOR-IN-CHIEF

R. A. KILDUFFE, Atlantic City Hospital, Atlantic City, New Jersey

### EDITOR OF TECHNICAL SUPPLEMENT

W. S. THOMAS, M.D., Clifton Springs Sanitarium, Clifton Springs, New York

### ASSOCIATES

M. BODANSKY, M.D., John Sealy Hospital and Department of Pathological  
Chemistry, University of Texas, Galveston, Texas

I. DAVIDSOHN, M.D., Mt. Sinai Hospital, Chicago, Ill.

KANO IKEDA, M.D., Chas. T. Miller Hospital, St. Paul, Minn.

## CONTENTS

### NUMBER 1, JANUARY, 1938

The Use of Bromthymol Blue and Phenol Red Mannitol Agar for the Isolation of Pathogenic Types of Staphylococci. G. H. CHAPMAN, C. W. LEIB AND L. G. CURIO.....	3
Determination of Blood Creatinine, etc. J. E. ANDES.....	12
Molasses Agar for the Isolation and Cultivation of Yeast Molds. SOL HABERMAN.....	20
The Determination of Blood Plasma and Spinal Fluid Proteins. G. W. JOHNSTON AND R. B. GIBSON.....	22
A New Contrast Mounting Medium in Different Colors. GUSTAV WILLENS	32
Published Procedures Recommended for Trial:	
An Adaptation of Van Slyke's Simplified Determination of Blood Urea Clearance.....	33
A Simple Method for Silver Impregnation of Reticulin.....	35
Stain for Myelin Sheaths Embedded in Paraffin.....	36
A Simple Method for Obtaining Anerobiasis.....	36
Individual Culture Dish with Increased Carbon Dioxide Tension....	37
Annotations, Minor Contributions, Queries.....	38

### NUMBER 2, MARCH, 1938

Useful Methods for Routine and Special Examination of Stools with Particular Reference to the Diagnosis of Intestinal Parasites. EMMA S. MOSS.....	43
Test for Infectious Mononucleosis. ISRAEL DAVIDSOHN.....	56
Determination of the Size and the Hemoglobin Content of the Average Red Blood Cell. WILLIAM P. BELK.....	60
Improved Warthin-Starry Method of Staining Spirochetes in Tissue Sections. DONALD A. KERR.....	63
Published Procedures Recommended for Trial:	
A Simple Method for Demonstrating Spirochetes in Frozen Sections..	67
A Rapid Method for Staining Spirochaeta Pallida in Single Sections..	68
A New, One-minute Method for the Staining of Spirochetes.....	69
Simple and Rapid Methods of Staining Treponema Pallidum.....	70
A Simple Method for Staining Spirochetes.....	70
Use of Nigrosin to Demonstrate Treponema Pallidum in Syphilitic Lesions.....	71

## Annotations, Minor Contributions, Queries:

Improved Ring Maker and Emulsion Pipette for the Kline Test.....	71
A Method for the Preparation of Giemsa Stain.....	72
Estimation of Phosphotase in Fluoride Blood.....	72
Pneumococcus Typing.....	72
Device for Mailing Slides.....	72

## NUMBER 3, MAY, 1938

The Oxidative Micro-estimation of Blood Lipids. ELDON M. BOYD.....	77
A Micromethod for the Determination of Total and Free Cholesterol. WARREN M. SPERRY.....	91
An Improved Method for the Photometric Determination of Serum Bilirubin. ALFRED S. GIORDANO AND MILDRED PRESTRUD.....	100
Modified Technic for the Determination of Hemoglobin by the Sheard- Sanford Photometer. A. S. GIORDANO.....	103
Published Procedures Recommended for Trial:	
The Analysis of Calcium in Blood and Other Biological Material by Titration with Ceric Sulfate.....	104
Analysis of Urinary Calculi.....	105
Urine Chemistry in the Diagnosis of Embryonal Tumors.....	107
Determination of the Icteric Index by the Acetone Method.....	108
Annotations, Minor Contributions, Queries:	
Cleaning Glassware. Mayer's Albumin Fixative. Blood Diastase...	108

## NUMBER 4, JULY, 1938

Toxicology in a General Hospital. DALE G. FRIEND.....	113
Preparation of the Autopsied Body for Embalming. KANO IKEDA.....	127
Culture Method for the Isolation of Tubercle Bacilli from Contaminated Materials. FRANK G. PETRIK.....	134
Rapid Hematoxylin-Eosin Staining of Frozen Sections. A. M. Young....	138
The Rhamy Frozen Section Technic Introducing a Modified Stain and a Method of Permanent Mounts. J. M. FEDER.....	139
A Method for the Preparation of Curettings for Microscopic Sections. I. MILTON WISE.....	142
Spirochetal Stain on Paraffin Sections. THELMA GARVIN.....	144
An Improved Stain Technic for Opsono-phagocytic Testing in Brucellosis. J. C. CAIN.....	146
Published Procedures Recommended for Trial:	
A Rapid and Economical Method for Staining Routine Tissue Sections with Hematoxylin and Eosin.....	147
Preservation of Complement for the Wassermann Reaction.....	147
A Method of Staining Hair and Epithelial Scales.....	148
A New Chocolate Agar for Culture of the Gonococcus.....	148

# CONTENTS

V

## Annotations, Minor Contributions, Queries:

Cleaning Compound for Glassware.....	149
Dehydrating Agents.....	149
Gum Dammar for Mounting Sections.....	149
Counterstain for the Gram Method.....	150

## NUMBER 5, SEPTEMBER, 1938

A Simplified Method for the Determination of Blood Urea. FABRY L. HAWK AND JEROME E. ANDES.....	153
Analysis of Urinary Calculi. THADDEUS JOHN DOMANSKI.....	157
A Simplified Procedure for the Determination of Mercury in the Urine. ALEXANDER O. GETTLER AND ROBERT A. LEHMAN.....	161
Hortega's Silver Impregnation Technique. WM. M. GERMAN.....	165
Notes on the Rubber Paraffin Method. LILLIAN SHERMAN, SYDNEY, H. KANE, AND LAWRENCE W. SMITH.....	171
Double Imbedding Method for Rubber Paraffin. EDNA M. BEYERS.....	173
The Use of Dioxan in Histological Technique. THELMA GARVIN.....	175
The Blood Bank of the Graduate Hospital of the University of Penn- sylvania. P. B. PATTON.....	178
Annotations, Minor Contributions, Queries: New Corning Glass Works Catalog.....	182

## NUMBER 6, NOVEMBER, 1938

Bacterial Filters and Filtration Technic. H. E. MORTON.....	185
Technical Procedures in Blood Chemistry for the Small Hospital Labora- tory. R. H. HAMILTON.....	206
Technic of Venipuncture. S. W. SAPPINGTON.....	212
The Technic and Diagnostic Value of the Agglutination Test. E. H. SPAULDING.....	221
An Evaluation of Methods for Gastric Analysis. W. A. SWALM.....	227
Preparation of Pathological Specimens in Natural Color. F. M. KRAMER.....	232
Anerobic Cultivation of Bacteria as a Routine Laboratory Procedure. E. H. SPAULDING.....	236
Bacteriophage Technic. DOROTHY SAGE.....	241
The Preservation of Bacterial Cultures. Summary of Methods. H. E. MORTON.....	243
Published Procedures Recommended for Trial: Staining of Acid-fast Bacilli in Paraffin Sections.....	245
Note on Staining of Tubercle Bacilli in Sections.....	246
Concentration of Tubercle Bacilli from Sputum by Chemical Floccula- tion Methods.....	247
Combined Gram-Methyl Green-Pyronine Stain for Formaldehyde Tissue.....	248

## Annotations, Minor Contributions, Queries:

Yellow "Addition" Filter for Colorimetry.....	249
Improved Method for Making Smear from Sputum.....	249
Potassium Tellurite and Copper Sulphate for Saboreaud's Medium for Pathogenic Fungi.....	250
Citrate Solutions for Preservation of Fluid Blood.....	250
Mannitol Fermentation as an Indicator for Conjunctival Patho- genicity of Staphylococci.....	250
A New Test for Globulin in the Cerebro-Spinal Fluid.....	251
